

KLEENLINE™

BY WAXIE®

Paper is collected from schools & universities, office buildings and even homes located in Western United States. It is then manufactured into 100% recycled bath tissue, kitchen towels, hand towels and napkins. Once converted, these products are used in the very schools & universities, office buildings and homes from where they were originally collected - which contributes to helping to "close the loop" for the recycling efforts in our region, and conserving natural resources.

All KleenLine™ Paper Products:

- Made from 100% recycled paper collected in the Western United States.
- Meets the EPA Comprehensive Procurement Guidelines (EPA CPG) for post-consumer recycled content.
- Minimum 75% Post Consumer Waste (PCW).
- Manufactured Processed Chlorine Free (PCF).
- Meets the requirements of the Leadership in Energy & Environmental Design Existing Building: Operations & Maintenance (LEED® EB:OM) Green Building Rating System.
- Fits a wide range of universal product dispensers.
- Perfect for schools & universities, office buildings, airports, hotels, healthcare facilities, and any other place that has restrooms!
- Compelling combination of quality, economy and a more environmentally preferable profile.
